School of Medicine
Stanford, California 94305

Dear Josh:

Enclosed is my complete file of correspondence with Ed. I doubt that any of it will be of help to you.

I never got to know Ed well - about my only contacts with him were during his occasional visits with Dave Bonner and at Conferences such as the Ford Symposium we were all at. From what little interaction I did have I found him to be extraordinarily helpful and considerate and to have a fatherly attitude towards me. I suppose he treated everyone the same - and we all benefited from the knowledge that he was there to help us, if help were needed.

Best regards,

Charles Yanofsky
Herzstein Professor of Biology
